
Exoskeleton : Market Shares, Strategies, and Forecasts, Worldwide, 2015 to 2021

Economies of scale and new levels of patient progress for longer durations are provided by Exoskeletons. Exoskeleton target markets are hospital, clinical, and eventually homecare. Funding sources are immediately from the insurance companies, but beyond that from the health clubs that seek to promote health and wellness.

Table of Contents

Exoskeleton Robots Market Shares, Market Strategy, and

Market Forecasts, 2015 to 2021	1
Exoskeleton Executive Summary	23
Exoskeleton Market Driving Forces	23
Exoskeletons as Rehabilitation Assistive Devices	24
Exoskeleton Rehabilitation Robots Decrease the Cost of Recovery	26
Exoskeleton Market Shares	27
Medical Exoskeleton Market Forecasts	29

1. Exoskeleton Market Description and Market Dynamics	31
1.1 Market Growth Drivers For Exoskeletons	31
1.2 Spinal Cord Injury Rehabilitation	32
1.2.1 Ekso Pulse System	34
1.2.2 Electrical Stimulation	35
1.2.3 Robotic Therapy Devices	35
1.2.4 Partial Body Weight-Supported Treadmill	36
1.2.5 Virtual Reality (including Wii-hab)	37
1.2.6 Brain Stimulation	37
1.2.7 Acupuncture	37
1.2.8 Mental Practice	38
1.2.9 Mirror Therapy	38
1.2.10 Evidence-Based Treatment Protocols	38
1.3 Traumatic Brain Injury Program	39
1.3.1 Concussion Program	39
1.4 Rehabilitation Physical Therapy Trends	40
1.4.1 Robotic Exoskeleton Team Research Studies	40
1.4.2 Exoskeleton Research in the Market For Use In Gait Training	42
1.4.3 Running with Robots	44
1.4.4 Use Of Video Game Technology In PT	45
1.4.5 Telemedicine Growing Trend In The Physical Therapy Space	46
1.5 Exoskeleton Market Definition	47
1.6 Robotic Rehabilitation Devices Based On Automated Process	49
1.6.1 Automated Process for Rehabilitation Robots	50
1.6.2 Why Rehabilitation is Essential	56
1.6.3 Rehabilitation Involves Relearning of Lost Functions	57

1.7	Robotic Exoskeletons Empower Patient Rehabilitation Achievements	60
1.7.1	Seizing the Robotics Opportunity	60
1.7.2	Modular Self-Reconfiguring Robotic Systems	61
1.8	Home Medical Exoskeletons	61
1.8.1	Telemedicine and Domestic Robots	62
1.8.2	Rehabilitation Robots Provide Intensive Training For Patients And Physical Relief For Therapists	63
2.	Exoskeleton Market Shares and Market Forecasts	65
2.1	Exoskeleton Market Driving Forces	65
2.1.1	Exoskeletons as Rehabilitation Assistive Devices	66
2.1.2	Exoskeleton Rehabilitation Robots Decrease the Cost of Recovery	68
2.2	Exoskeleton Market Shares	69
2.2.1	Medical Exoskeleton Rehabilitation Robot Market Shares, Units	74
2.2.1	Ekso Exoskeleton Market Share Unit Analysis	75
2.2.2	Ekso Bionics Robotic Suit Helps Paralyzed Man Walk Again	75
2.2.3	ReWalk™ Exoskeleton Suit Home Use	77
2.2.4	AlterG Bionic Leg Customer Base	77
2.2.5	Hocoma Robotic Rehabilitation	78
2.2.6	Homoca Helping Patients To Grasp The Initiative And Reach Towards Recovery	79
2.2.7	Able-Bodied Exoskeletons	82
2.3	Medical Exoskeleton Market Forecasts	83
2.3.1	Medical Exoskeleton Robot Market Segments	86
2.3.2	Medical Extremities, Stroke CPM, And Exoskeleton Robot Market Segments	88
2.3.3	Market for Limited Mobility Devices	90
2.3.4	Spinal Cord Injuries	92
2.4	Rehabilitation Robot Market Forecasts	93
2.4.1	Rehabilitation Robots Unit Shipments	95

2.4.2	Rehabilitation Robots Market Penetration Forecasts Worldwide, 2014-2020	97
2.4.3	Gait Training	102
2.4.4	Sports Training	103
2.4.5	Exoskeletons	103
2.4.6	End-effectors	103
2.4.7	Exoskeleton-Based Rehabilitation	104
2.4.8	Mobility Training Level Of Distribution	104
2.5	Disease Incidence and Prevalence Analysis	107
2.5.1	Robotic Therapeutic Stroke Rehabilitation	107
2.5.2	Aging Of The Population	108
2.5.3	Disease Rehabilitation	109
2.5.1	Rehabilitation of Hip Injuries	110
2.6	Exoskeleton Prices	111
2.6.1	Ekso Bionics	111
2.7	Rehabilitation Robots Regional Analysis	113
2.7.1	Ekso Bionics Regional Presence	114
3.	Exoskeleton Products	116
3.1	Exoskeletons	116
3.1.1	Muscle Memory	116
3.2	Ekso Bionics	117
3.2.1	Ekso Gait Training Exoskeleton Uses	123
3.2.2	Ekso Bionics Rehabilitation	128
3.2.3	Ekso Bionics Robotic Suit Helps Paralyzed Man Walk Again	131
3.2.4	Ekso Go To Market Strategy	131
3.2.5	Ekso Exoskeleton To Achieve Rehabilitation In The Home	133
3.3	Rewalk	134

3.3.1	ReWalk™ Exoskeleton Suit Home Use	136
3.3.2	ReWalk™ Personal System	140
3.3.3	ReWalk™ Rehabilitation	142
3.4	Rex Bionics	142
3.5	Berkley Robotics Laboratory Exoskeletons	144
3.5.1	Berkley Robotics and Human Engineering Laboratory ExoHiker	144
3.5.2	Berkley Robotics and Human Engineering Laboratory ExoClimber	146
3.5.3	Berkeley Lower Extremity Exoskeleton (BLEEX)	148
3.5.4	Berkley Robotics and Human Engineering Laboratory Exoskeleton	148
3.6	Hocoma Products	150
3.6.1	Hocoma ArmeoSpring Based On An Ergonomic Arm Exoskeleton	154
3.6.2	Hocoma Armeo®Spring Clinical Success	154
3.6.3	Hocoma Armeo Functional Therapy Of The Upper Extremities	156
3.6.4	Hocoma Armeo®Spring - Functional Arm and Hand Therapy	157
3.7	AlterG: PK100 PowerKnee	159
3.7.1	AlterG Bionic Leg	161
3.7.2	Alterg / Tibion Bionic Leg	163
3.7.3	AlterG Bionic Leg Customer Base	165
3.7.4	AlterG M300	165
3.7.5	AlterG M300 Robotic Rehabilitation Treadmill	169
3.8	Parker Hannifin Indego	171
3.9	Catholic University of America Arm Therapy Robot ARMin III	173
3.9.1	Catholic University of America Armin Iii Project Description:	174
3.9.2	Catholic University of America HandSOME Hand Spring Operated Movement Enhancer	175
3.10	Sarcos / Raytheon	176
3.10.1	Raytheon XOS 2: Second Generation Exoskeleton	179

3.10.2	Sarcos LC Acquires Raytheon Sarcos Unit of Raytheon	180
3.11	DARPA Funded Exoskeleton	184
3.12	The Springtail/XFV Exo-skeleton Flying Vehicle	186
3.13	HEXORR: Hand EXOskeleton Rehabilitation Robot	187
3.14	Mira Lopes Gait Rehabilitation Device	192
3.14.1	Prototype of University of Twente LOPES with 8 Actuated Degrees of Freedom	193
4.	Exoskeleton Technology	196
4.1	Exoskeleton Medical Technology	196
4.2	Robotic Actuator Energy	197
4.2.1	Elastic Actuators	198
4.3	Rehabilitation Robotic Risk Mitigation	199
4.4	Exoskeleton Multi-Factor Solutions	205
4.4.1	Biometallic Materials Titanium (Ti) and its Alloys	205
4.5	Cognitive Science	206
4.6	Artificial Muscle	207
4.7	Regulations	209
5.	Exoskeleton Company Profiles	211
5.1	AlterG	211
5.1.1	AlterG M300 Customers	214
5.1.2	AlterG M300	219
5.1.3	AlterG™ Acquires Tibion Bionic Leg	220

5.2 Ekso Bionics	221
5.2.1 Ekso Exoskeletons for Medical and Wellness:	222
5.2.2 Ekso Able-bodied Exoskeletons	222
5.2.3 Ekso Bionics Holdings	223
5.2.4 Ekso Fourth Quarter And Full Year 2014 Financial Results	225
5.2.5 Ekso Bionics Seeks To Lead The Technological Revolutions	226
5.2.6 Ekso Bionics HULC Technology Licensed to the Lockheed Martin Corporation	227
5.2.7 Ekso Bionics Regional Presence	227
5.2.8 Ekso Bionics Customers	228
5.3 Hocoma	236
5.3.1 Hocoma Revenue	239
5.4 Parker	240
5.4.1 Parker Revenue for Fiscal 2015 Second Quarter Sales	241
5.4.2 Parker Hannifin Segment Results Fiscal 2015 Second Quarter	242
5.5 ReWalk Robotics	242
5.5.1 ReWalk Revenue	244
5.5.2 ReWalk Year-End 2014 Financial Highlights	245
5.6 RexBionics	246
5.7 Sarcos	247
5.7.1 Sarcos LC Acquires Raytheon Sarcos Unit	247
5.8 University of Twente	248
About The Company	249
Research Methodology	250
