

Digital Economy: Technology Service to Unions

LEXINGTON, Massachusetts (November 17, 2017) – WinterGreen Research announces that it has initiated a new service “Digital Economy: Technology Service to Unions” a way for lawyers to get quick and accurate insight into technology that relates to the need to organize new worker groups. The services provide a custom roadmap, with the answers provide a key insight about the details of the technology and the relevance to a recruiting new members and holding on to the existing membership base.

WinterGreen Research is an independent research organization funded by the sale of market research studies all over the world and by the implementation of ROI models that are used to calculate the total cost of ownership of equipment, services, and software. The company has 35 distributors worldwide, including Global Information Info Shop, Market Research.com, Research and Markets, and electronics.ca.

WinterGreen Research is positioned to help customers facing challenges that define the modern enterprises. The increasingly global nature of science, technology and engineering is a reflection of the implementation of the globally integrated enterprise. Customers trust wintergreen research to work alongside them to ensure the success of the participation in a particular market segment.

WinterGreen Research supports various market segment programs; provides trusted technical services to the marketing departments. It carries out accurate market share and forecast analysis services for a range of commercial and government customers globally. These are all vital market research support solutions requiring trust and integrity.
