

Professional Computer Assisted Coding: Market Shares, Strategies, and Forecasts, Worldwide, 2017-2027

Table of Contents

Professional Computer Assisted Coding software is evolving platforms that are useful for clinical facilities and physician office groups seeking to achieve excellence and repeatability in billing and workflow management.

Professional Computer Assisted Coding: Executive Summary

The study is designed to give a comprehensive overview of the Professional Computer Assisted Coding software market segment. Research represents a selection from the mountains of data available of the most relevant and cogent market materials, with selections made by the most senior analysts. Commentary on every aspect of the market from independent analysts creates an independent perspective in the evaluation of the market. In this manner the study presents a comprehensive overview of what is going on in this market, assisting managers with designing market strategies likely to succeed.

Table of Contents

Table of Contents

Computer Assisted Coding Executive Summary	18
Medical Best Practice Linking	21
CAC for Coders	21
Computer Assisted Coding Best Practice	24
Coding Solutions	26
Physician Computer Assisted Coding Services	28

Natural Language Computer Assisted Coding Market Shares	29
Natural Language Computer Assisted Coding of Medical Procedures Forecasts	31
Medical Best Practice Linking	33
1. Computer Assisted Coding for Large Physician Practices and Ambulatory Treatment Centers Market Description and Market Dynamics	34
1.1 Coding Challenge	34
1.1.1 Computer Assisted Coding (CAC) Physician Practice Services Component	35
1.1.2 Advances In Natural Language Processing And Informatics	36
1.1.3 Using Electronic Health Record (EHR) Documentation To Generate Codes	37
1.2 Computer-Assisted Coding	39
1.2.1 Physician Practice Industry Forces Affecting Development of CAC	40
1.2.2 Application of CAC Technology	42
1.3 Development of a CAC Tool For Physician Use	43
1.3.1 CAC Impact on the Coding Workflow	43
1.3.2 Computers Replace Human Coders	43
1.3.3 CAC Applied Without Human Intervention Depends On Critical Differences Between CAC Systems	44
1.4 Healthcare Industry Largest In United States	45
1.4.1 Building a Safer Health System	47
1.4.2 Facilitating the Use of Technology in the Healthcare Industry	48
1.4.3 Prescription Drug Modernization	49
1.5 Medical Necessity and Medical Necessity Errors	50
1.6 Physician Office Electronic Coding	51
1.6.1 CAC Automates and Accelerates Auditing	55
