

Youth Sports Video Apps: -- Markets Reach \$3.4 Billion by 2025

LEXINGTON, Massachusetts (January 22, 2019) – WinterGreen Research announces that it has published a new study Youth Sports Video Apps Markets: Market Shares, Strategy, and Forecasts, worldwide, 2019 to 2025. The 2019 study has 303 pages, 133 tables and figures. Worldwide markets are poised to achieve continuing growth as the advantages brought by using apps for youth sports drive compelling adoption rates, bringing lots of advertising revenue to app vendors.

Demand for youth sports video capability is up as more teams learn how to use video and as more teams are formed. There is a change in the way youth sports is delivered, associations are becoming stronger, team play is embraced as a way to stave of screen time among youth.

Youth sports is changing, moving away from bullying rampant in unorganized sports and toward professionally trained coaches that compliment parent volunteers. All this represents movement in the direction of creating an enjoyable fulfilling experience for a child. Children love teams if they have friends and if they can perform at a level that is satisfying.

This builds self-esteem. Youth sports teams are being created that leverage video apps to provide a quality experience for the youthful participants, coaches, and parents.

Worldwide Youth Sports Video Apps market at \$228 million market in 2018, is expected to reach \$3.4 billion by 2025.

WinterGreen Research is an independent research organization funded by the sale of market research studies all over the world and by the implementation of ROI models that are used to calculate the total cost of ownership of equipment, services, and software.
